

O. G. McCLAIN
CONSULTING GEOLOGIST
WILSON BUILDING
CORPUS CHRISTI, TEXAS

May 7, 1951

Mr. Leslie Bowling
510 California Building
New Orleans, 12, La.

Dear Sir:

Please be advised that the Corpus Christi Geological Society has voted in favor of becoming a member of the Association of Gulf Coast Geological Societies. This action was taken at a business meeting held on May 4, 1951.

While it is not especially pertinent to the above consideration, you may be interested to learn that the Corpus group voted in favor also of indicating its approval and its willingness to join with other Societies in this area in a move to form a regional section of the A.A.P.G.

Mr. William H. Wallace, Jr. will continue to represent the Corpus Christi Geological Society until further notice.

Having made our decision, I feel that it is our duty now to support this new organization. We will try to have a representative at the May 15th meeting in New Orleans.

Yours very truly,

O. G. McClain, President
Corpus Christi Geological Society
