Mr. Leslie Bowling
Chairman, Steering Committee
Gulf Coast Association of Geological Societies
Whitney Building
New Orleans, Louisiana

Dear Mr. Bowling:

At a business meeting of the Corpus Christi Geological Society March 30, I made a report on the first meeting of the Steering Committee which was held in Houston March 14. The minutes of the meeting and the proposed association were thoroughly discussed, and the sentiments of the group were practically 100% favorable. However, the group decided, for some reason which was not clear to me, to postpone a vote of acceptance until after the National A.A.P.G. convention to be held in St. Louis the latter part of this month. Also, the attendance at Friday's meeting was rather low, so I was not able to get a representative poll of the number of people planning to attend the New Orleans convention.

Therefore, it appears that the Corpus Christi Geological Society will probably vote to join the proposed association at their meeting on Friday, May 4, at which time, also, I will poll the members, in order to determine how many will attend the New Orleans meeting. I will write to you the same day.

I am sorry for our delay, and I hope it will not be too much of an inconvenience.

Yours very truly,

W. H. Wallace, Jr.
