Re: New Association of the Gulf Coast Geological Societies.

Dear Sir:

We would like to thank you very much for your letter and your report on the action that took place in Houston at the Steering Committee meeting.

Let me congratulate you for being the first chairman of this new organization. Under your leadership and management there is no question that this new organization should succeed and your diplomatic approach to most of the problems discussed in Houston cannot help but win everyone over to the right side of the problem.

It is indeed pleasant to know that everyone from the other organizations was present, proving therefore that there is a considerable interest in the problem and certainly interest in the need of procuring the Regional Meeting on a business basis.

May I thank you personally for your wonderful work and you can be assured that you will receive all the help you need.

Yours very truly,

THE NEW ORLEANS GEOLOGICAL SOCIETY
