Mr. Leslie Bowling
510 California Company Bldg.
New Orleans, Louisiana

Dear Sir:

In response to your request the following is a breakdown of the estimated cost per person for the dance to be given by the Association on November 16:

Hotel corkage charge	.50	per person
Hotel setup charge (ice, mixers, etc.)	.50	" "
Tip for waiters	.10	" "
State tax	.03	" "
Orchestra	.25	" "
Total:	\$1.38	" "

The cost of the orchestra is \$160.00 for the evening and the cost per person is based upon 600 people (300 couples) attending. The charge of .50 per person for setups may be a trifle high. I talked to Mr. Soche about this item and he said it usually ran .30 to .35 per person. However, in order to make certain that no loss will occur, I have raised this figure to .50. I also recommend that the price per person be made \$1.50 (\$3.00 per couple) in order to meet any possible deficits.

The figures quoted are to cover the cost of the dance only and do not represent the total registration fee expected.

Yours very truly,

E. M. Baysinger
