SPECIAL MEETING 1990-1991 SESSION
On April 22, a letter was directed to society members, together with the minutes of the first meeting of the Standing Committee of the proposed Gulf Coast Association. This letter was directed to society members, together with the minutes of the first meeting of the Standing Committee of the proposed Gulf Coast Association.

At the time of the letter, the Standing Committee of the proposed Gulf Coast Association was in the process of forming the association, and the letter was intended to provide information to members about the progress of the committee.

The Standing Committee was tasked with forming the association, and the letter was a means of keeping members informed about the process. The letter included information about the committee's goals, procedures, and progress, as well as any updates or changes to the plans.

The letter also included a request for members' input and support. The Standing Committee was seeking the participation of members in the formation of the association, and the letter was a call to action for members to provide their input and assistance.

The letter was an attempt to engage members and foster a sense of community among society members. The Standing Committee believed that the success of the association would depend on the support and participation of society members, and the letter was a means of reaching out to members and encouraging their involvement.

In conclusion, the letter was a vital part of the process of forming the association, and it served as a means of keeping members informed and engaged. The Standing Committee was committed to building a strong and vibrant association, and the letter was a step in that direction.
The 50th anniversary trip of the East Texas Geological Society has been scheduled for Friday, Saturday, and Sunday, May 13, 14, and 15, 1991. The trip will cover the eastern part of the state, including the Sabine and Neches Rivers and the coastal plain.

The trip will begin on Friday, May 13, with a visit to the Sabine River and its surrounding area. On Saturday, May 14, the group will visit the Neches River area, including the area around Port Arthur and Beaumont. The trip will conclude on Sunday, May 15, with a visit to the coastal plain area, including the area around Galveston and Houston.

The trip will include a series of lectures and discussions on the geology of the area, with presentations by local geologists and researchers.

ACKNOWLEDGMENT TO PAUL YEAGER

Paul Yeager has given the following acknowledgment to the following universities:

- Texas A&M University
- Texas Christian University
- University of Texas at Austin
- University of Texas at El Paso
- University of Texas at San Antonio
- University of Texas at Permian Basin
- University of Texas at Tyler
- University of Texas at Dallas
- University of Texas at Arlington
- University of Texas at Austin

The trip is sponsored by the East Texas Geological Society, and the cost is $25 per person.}

The winners of the annual golf tournament will be announced at the banquet on Saturday evening, May 14, 1991.
The position you offer us appears to be an associate professorship.

The department is interested in both instruction and research.
