Mr. Fred R. Schroeder  
c/o Union Producing Co.  
Box 1407  
Shreveport, Louisiana

Dear Mr. Schroeder:

We are pleased to report that most of the southern geological societies have accepted to belong to an association, which will have for purpose a regional meeting to take place once a year in the Gulf Coast and Southern Area.

The Steering Committee will meet on March 14th in Houston, Texas. It will be deeply appreciated if you will nominate the representative of the Shreveport Geological Society to serve on the Steering Committee in Houston on that date.

I may be mistaken, but I was more or less under the impression that Mr. Philpott of the Carter was your representative for the meeting.

Our correspondence file does not indicate that his nomination was official and, therefore, we will not communicate with anyone until we receive confirmation from you of the name of the member of the Shreveport Geological Society that you will want to serve on this Steering Committee.

Houston has accepted to be the host of the Steering Committee on March 14 and will you please let me know at your earliest convenience so that we can send all the names at once to the Houston group for the first meeting.

With best personal regards, I would like to remain

Yours very truly,

THE NEW ORLEANS GEOLOGICAL SOCIETY
